

You **Keep Production Moving,** We Keep You Connected.

The Panasonic Multi-Cell DECT System keeps you in constant touch with colleagues and key customers wherever you are in the factory.

Panasonic DECT Wireless Solution for Factories

Anytime, Anywhere Access

Panasonic DECT handsets allow you to roam freely and still communicate seamlessly and effectively. You can receive phone calls from customers, business partners and the head office even while you are on the factory floor, the loading dock, or in a storage area. And you can talk while checking products and conditions on-site, making accurate communication easy and effective.

Dust, Water and Impact-Resistant

Ideally suited for busy factories, the ruggedized DECT handset protects against moisture or splashing water, prevents damage from accidental drops on the floor, and keeps dust from penetrating and adversely affecting performance.

Convenient and Scalable Solution

Panasonic DECT wireless coupled with your Panasonic KX-TAW/TDA/TDE/NCP communications system offers the ideal mobile communications solution with up to a maximum of 128 cell stations.

Panasonic **ideas for life**

Communication Made Easy

Panasonic offers reliable, flexible solutions for factories.

Elegant, Smart and Sturdy - Business Mobility Terminals

Handsets have a large, 6-line, blue backlit LCD and include all the features you'd expect such as Caller ID, personal and system speed-dials, and a built-in 100-entry phone book and distinct ring/LED options. The handset includes an intuitive Graphical Icon Menu and dynamic Operation Guidance with Soft Keys and a built-in Joystick.

Seamless Connectivity

This system provides automatic hand-over between installed cell stations - enhancing coverage and giving you true communication mobility even within large premises. Maintain high connection quality as you walk around, moving from one cell station area to the next while continuing with important business conversations.

With Panasonic DECT, multi-system Registration allows you to roam across up to 4 different phone systems with one wireless DECT handset for maximum flexibility.

A Rugged Model for Tough Environments

With its IP54 dust and splash resistance, the KX-TD7696 is a reliable communications companion when work takes you to the factory floor, shipping and receiving or other harsh environments. Ideal for industrial, manufacturing, wholesale, retail and warehouse settings. The ruggedized case makes the unit shock resistant as well, to help prevent damage from accidental drops on the floor.
